

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (currently amended): A recording medium cartridge comprising:
 - a cartridge case;
 - a recording medium housed in the cartridge case; and
 - a cartridge memory at least part of which is housed in said cartridge case,
wherein said cartridge memory comprises an IC chip and an antenna electrically connected to said IC chip;
wherein said antenna is spaced apart from said IC chip; and
wherein said IC chip is formed on ~~an IC chip~~ a first board and the antenna is formed on a second board; spaced apart from the IC chip board and
wherein the second board is separate and spaced apart from the first board.
2. (previously presented): A recording medium cartridge according to claim 1,
wherein said antenna is a printed antenna.
3. (original): A recording medium cartridge according to claim 2, wherein said antenna is printed with a conducting paste.
4. (currently amended): A recording medium cartridge comprising:

AMENDMENT UNDER 37 C.F.R. § 1.111

Application No.: 10/644,769

Docket No.: Q77075

a cartridge case;

a recording medium housed in the cartridge case; and

a cartridge memory at least part of which is housed in said cartridge case,

wherein said cartridge memory comprises an IC chip and an antenna electrically

connected to said IC chip;

wherein said antenna is spaced apart from said IC chip;

wherein said IC chip is formed on an IC chip board and the antenna is spaced
apart from the IC chip board; and

~~A recording medium cartridge according to claim 2,~~ wherein said antenna is
printed on ~~a-~~an outer surface of said cartridge case.

5. (canceled).

6. (original): A recording medium cartridge according to claim 2, wherein said
antenna is overcoated.

7. (previously presented): A recording medium cartridge according to claim 3,
wherein said antenna is overcoated.

8. (original): A recording medium cartridge according to claim 4, wherein said
antenna is overcoated.

AMENDMENT UNDER 37 C.F.R. § 1.111

Application No.: 10/644,769

Docket No.: Q77075

9. (canceled).

10. (original): A recording medium cartridge according to claim 1, wherein said antenna is arranged at a corner inside said cartridge case.

11. (original): A recording medium cartridge according to claim 2, wherein said antenna is arranged at a corner inside said cartridge case.

12. (original): A recording medium cartridge according to claim 3, wherein said antenna is arranged at a corner inside said cartridge case.

13. (original): A recording medium cartridge according to claim 4, wherein said antenna is arranged at a corner inside said cartridge case.

14. (canceled).

15. (original): A recording medium cartridge according to claim 6, wherein said antenna is arranged at a corner inside said cartridge case.

16. (original): A recording medium cartridge according to claim 7, wherein said antenna is arranged at a corner inside said cartridge case.

AMENDMENT UNDER 37 C.F.R. § 1.111

Application No.: 10/644,769

Docket No.: Q77075

17. - 18. (canceled).

19. (original): A recording medium cartridge according to claim 1, wherein said cartridge comprises a plurality of said antennas or said IC chips.

20. (canceled).

21. (previously presented): A recording medium cartridge comprising:
a cartridge case;
a recording medium housed in the cartridge case; and
a cartridge memory at least part of which is housed in said cartridge case,
wherein said cartridge memory comprises an IC chip and an antenna electrically connected to said IC chip;
wherein said antenna is spaced apart from said IC chip;
wherein said antenna is disposed at a first corner inside said cartridge case and said IC chip is disposed at a second corner inside said cartridge case.

22. (previously presented): A recording medium cartridge according to claim 21, wherein said IC chip is formed on an first board and the antenna is spaced apart from the first board.

AMENDMENT UNDER 37 C.F.R. § 1.111

Application No.: 10/644,769

Docket No.: Q77075

23. (previously presented): A recording medium cartridge according to claim 22, wherein said antenna is formed on a second board and the second board is spaced apart from the first board.

24. (previously presented): A recording medium cartridge comprising:
a cartridge case;
a recording medium housed in the cartridge case; and
a cartridge memory at least part of which is housed in said cartridge case,
wherein said cartridge memory comprises an IC chip and an antenna electrically connected to said IC chip;
wherein said antenna is spaced apart from said IC chip;
wherein said IC chip is disposed on a board at a corner of said cartridge case and inside said cartridge case and said antenna is printed on an outside of the cartridge case.

25. (previously presented): A recording medium cartridge according to claim 24, wherein the board is disposed on a bottom wall of the cartridge case and the antenna is printed on a top wall of the cartridge case.

26. (previously presented): A recording medium cartridge according to claim 25, wherein the board and the antenna are located at the same corner of the cartridge case.
